

Solutions4ebiz offers Azotel SIMPLer Billing and Operations platform to enable easy broadband rollout across the US

Indiana, USA and Cork, Ireland, Aug 21, 2009. Solutions4ebiz, a leading distributor of ISP and WISP solutions, announced today that it will offer the Azotel SIMPLer platform. This will enable New and Existing Broadband Service Providers to provide high quality, reliable broadband across the United States of America. Azotel is a world leader in the development of integrated Core Network and OSS solutions (Operational Support Systems including subscriber management and operations automation).

Jack Wilson, CEO, Solutions4ebiz commented: "With broadband Internet access expanding rapidly into rural America, Solutions4ebiz has identified leading suppliers like Azotel to provide turnkey solutions for quick deployment in these broadband networks. Azotel's leading SIMPLer solution together with its excellent record in customer service make them a perfect partner for us."

He continued: "At Solutions4ebiz, we focus on solutions that are proven in the industry so that new and existing WISPs and ISPs can easily deploy, manage and upgrade their network."

The Azotel SIMPLer platform was first deployed in 2002. It is a robust, reliable and cost efficient solution that powers broadband networks across Ireland, Europe, Africa and North America. Other than the radio equipment, Azotel's SIMPLer Platform delivers everything that an Operator requires through a single platform that can be seamlessly integrated with any access network such as Canopy from Motorola's wireless broadband range.

John O'Hare, CEO, Azotel commented: "Azotel is delighted to partner with Solutions4ebiz who like Azotel, are committed to serving their customers. Our proven SIMPLer system guarantees reliable broadband while reducing costs to the Operator and simplifying the business of delivering Next Generation Network services."

Benefits of the Azotel SIMPLer Platform

- Allows Operators to focus on subscribers - not on reinventing technology
- Greatly reduces cost of Operator setup and on-going operations
- No need for rack space
- Rapid Operator Business Setup and Network Deployment
- Proven Solution and Business Model
- Integrated Dispatch and Installer Management
- Minimum Technical Knowledge required
- Full Professional Backup Support Provided
- Ready Access to Advanced Services
- Access to large Azotel Operations Knowledge Base
- Ongoing Azotel R&D to deliver future services

SIMPLer Platform Features

- Complete Billing Platform for Service Providers
- Bandwidth Management
- Setup separate (W)ISPs under one (great for acquisitioning)
- Customer Accounting
- Customer Portal
- Integrated Helpdesk
- CRM
- NOC/NMS functions
- Access Network Agnostic

- ends -

About Azotel:
