

Azotel Technologies reinforces US presence with key industry membership

Irish Technology firm becomes a proud member of Wireless Internet Service Providers Association (WISPA)

Cork, Ireland, September 2011 – Irish technology firm Azotel Technologies today announced its membership to the leading US body/organisation Wireless Internet Services Providers Association (WISPA) consolidating the company's presence in the US. The move reinforces Azotel's long-standing relationship with Wireless Broadband Operators across the US and through a long-standing distribution agreement with Solutions4ebiz, Azotel continues to expand its presence and market share in the US

Azotel's SIMPLer™ Operating Support System (OSS) is a full-featured service provider management platform, used to manage single or multiple ISP businesses from a single portal in 4 continents and 22 countries around the globe. Key SIMPLer™ OSS features include auto provisioning of radio equipment, customer portal with automated sign-up, monthly billing and credit card processing, technical support trouble tickets, installation scheduling, inventory management, sales promotions, management reports and more.

"SIMPLer is the operational backbone of over 80 Wireless Internet Service Providers (WISP's) in North America, and by joining WISPA we believe we can foster stronger and more lasting relationships with all the WISPA members," said Lawrence Mulligan, COO of Azotel."

Azotel Technologies will be participating at the upcoming WISPAPALOOZA conference being held by WISPA in Las Vegas, the week of October 10th, 2011.

About WISPA

The Wireless Internet Service Providers Association is a non-profit association of more than 400 WISPs, consultants and others committed to supporting the provision of wireless broadband services. WISPs today serve more than 2,000,000 persons, many of whom have little or no choice in broadband providers. For more information contact Rick Harnish at (260) 307-4000.
