Solutions4ebiz Partners with Azotel to Enable Easy Broadband Rollout Across U.S

NewsireToday - /newsire/ - **Pendleton, IN, United States, 08/25/2009 - A new partnership forged by an Indiana-based IT solutions company will help fulfill President Obama's initiative to grow broadband access across rural areas of the United States, as part of the government's economic stimulus package.**

Solutions4ebiz, a leading distributor of ISP and WISP solutions, announced today that it will offer the Azotel SIMPLer platform. This will enable new and existing Broadband Service Providers to provide high quality, reliable broadband across the U.S. Azotel is a world leader in the development of integrated core network and Operational Support Systems (OSS) solutions, including subscriber management and operations automation.

"With broadband Internet access expanding rapidly into rural America, Solutions4ebiz has identified leading suppliers like Azotel to provide turnkey solutions for quick deployment in these broadband networks," said Jack Wilson, CEO of Solutions4ebiz. "Azotel's leading SIMPLer solution, together with the company's excellent record in customer service, makes them a perfect partner for us. At Solutions4ebiz, we focus on solutions that are proven in the industry so that new and existing WISPs and ISPs can easily deploy, manage and upgrade their network."

Azotel first deployed the Azotel SIMPLer platform in 2002 as a robust, reliable and cost-efficient solution that powers broadband networks across Ireland, Europe, Africa and North America. Other than the radio equipment, Azotel's SIMPLer platform delivers everything that an operator requires through a single platform that can be seamlessly integrated with any access network, such as Canopy from Motorola's wireless broadband range.

"Azotel is delighted to partner with Solutions4ebiz who, like Azotel, is committed to serving their customers," said John O'Hare, CEO of Azotel. "Our proven SIMPLer system guarantees reliable broadband while reducing costs to the operator and simplifying the business of delivering next generation network services."

Benefits of the Azotel SIMPLer Platform:

- Allows operators to focus on subscribers - not on reinventing technology;
- Greatly reduces cost of operator setup and ongoing operations;
- No need for rack space;
- Rapid operator business setup and network deployment;
- Proven solution and business model;
- Integrated dispatch and installer management;
- Minimum technical knowledge;
- Full professional backup support;
- Ready access to advanced services;
- Access to large Azotel operations knowledge base;
- Ongoing Azotel R&D to deliver future services.

SIMPLer Platform Features:

- Complete Billing Platform for Service Providers;
- Bandwidth Management;
- Setup separate (W)ISPs under one (great for acquisitioning);
- Customer Accounting;
- Customer Portal;
- Integrated Helpdesk;
- CRM;
- NOC/NMS Functions;
- Access Network Agnostic.

About Solutions4ebiz

Solutions4ebiz, headquartered in Pendleton, Indiana, is a company that specializes in Internet technology solutions for service providers, small to medium businesses and enterprises. With leading expertise in hardware and software distribution, custom software development, website design, managed hosting and IT support, the company can strategically select the best solutions for your business.
